Findings of Student Satisfaction Survey:

The Student Satisfactory Survey for the session 2017-18 provided us how the institution functions in different ways. After analysis and interpretation, it is found that students are mostly happy and satisfied with the admission process, course content, completion of course, library support, student-teacher relationship, extra-curricular activities, and overall performance of the institution. However, it is also found that some students are unsatisfied with certain aspects. The feedback also suggests that the institution need to improve in the field of career counseling and placement.
